

Team Name: sdmay24-24

Team Members: Jacob Elliot, Julia Falat, Joseph Hansen, Logan Kinch, Viola Newman, Chris Penne

Report Period: Sept 11-Sept 24

Summary of Progress in this Period

Sept. 13th: met as a group to discuss things we wanted to bring to the client meeting on the 18th.

Sept. 18th: Met with our client. He gave an overview of the project along with answering the questions we had. He also had a student from last year that worked on the same problem come in and give us information on how to improve the project.

Sept. 20th: met as a group to work on the introduction of our project design report. Determined the constraints that pertain to the project and how to go about working around them.

Sept. 23rd: Logan, Jacob, and Viola recorded audio for slides over the constraints and overview of the project.

Sept. 24th: Submitted our design report version 2 and our lightening talks presentation.

Pending Issues

Currently no issues.

Plans for Upcoming Reporting Period

Meet with our client and begin discussing project planning. The goal is to have an idea for how we want to go about designing our circuit and task we will need to do for a successful project.
