

Team Name: sdmay24-24

Team Members: Jacob Elliot, Julia Falat, Joseph Hanson, Logan Kinch, Viola Newman, Chris Penne

Report Period: Jan 16th – Jan 27th

Summary of Progress in this Period

Worked to determine the best time available to meet with each other and our client. Discussed how the software people would work together, and times to meet this next week to work on the actual project.

Pending Issues

Figuring out when our components will arrive so that we can start building the main product.

Plans for Upcoming Reporting Period

Confirm the client is satisfied with our work plan and work on the basic transmitting/receiving circuit. Also plan to mess around with the microcontroller and understand how the data can be translated.
